Presenters

Dr David Butler - "The Neuromatrix Paradigm in Sports Injury and Performance"

Damian Lawler - "Concussion - What Is It and What It Does To The Brain?"

Sabina Lane - "Exercise Addiction - What Is It and Who Has It?"

Juliana Lisboa - "Dehydration and How It Affects Performance"

Miles Callahan - "Stress Fractures and other Chronic Injuries of the Foot and Ankle"

EARLY REGISTRATION CLOSES WEDNESDAY 20TH JULY

REGISTRATION CLOSES FRIDAY 29TH JULY

2. A two-day interactive seminar with Dr. David Butler, held on the 5th and 6th August 2011. Explain Pain is a 2-day workshop with **David Butler** from the NOI group.

Dr David Butler (NOI) has an international reputation for innovative clinical thinking, translation of basic science findings into real world applications, and being able to communicate both like no one else.

Please see attached registration form for all details.
