

## Successful WAG Regional Challenge

Level 1 State Team Presentations at the Regional Challenge

*Katrina Squires, Tuesday, 15 November 2011*

What **AMAZING** talent we have coming through the lower levels of women's gymnastics in Tasmania!

Sunday November 13<sup>th</sup> saw the top 65 State & National Level 1-3 girls converge on Launceston to battle it out in the Regional Challenge after receiving invitations following their performances in the Southern & Northern Regional competitions in the past month.

Both the State & National Level 1 competitions saw the Southern Teams narrowly beat the Northern Teams to the post in a very tight competition during session 1.

Session 2 saw the Northern State Level 2 Team first to the line by a small margin, whilst in the National competition the South made a clean sweep of the individual placings and convincingly won the team competition.

The final session saw the Level 3 girls take to the apparatus. The Southern State Level team proved they were a force to be reckoned with taking out all but one individual placing and the Team competition. National Level 3 only had a Northern Team however the individual Southern Gymnast made sure she was amongst the medals in the apparatus placings.

Congratulations to all the competitors, coaches, judges and clubs that were represented. Thankyou to the families who supported their budding gymnasts in their endeavours. And a big thanks to Anke Moncur for her assistance in the lead-up to the competition and on the day.

Hope you enjoy all the photos below from the 2011 WAG Regional Challenge
