An online tool for clubs to assist with management

The ASC Healthy Club Checklist has been developed as a tool to assist State Sporting Organisations and their clubs with their overall management, governance and planning both at a strategic and operational level.

To this end, the questions within the ASC Healthy Club Checklist focus on the key areas that drive clubs; how clubs set and reach their targets considered important to running a successful club.

The report provided at the completion of the survey gives clubs a clear picture of whether their operations and activities are on target to achieve their goals.
