

Combined Gymnastics Staff Conference

Tuesday, 14 February 2012

On the 7th and 8th of February staff from the National Office and State Offices around Australia came together to share new ideas and information which will help grow our gymsports and expand our opportunities.

The conference brought together, for the first time ever, the national body and all states. This provided a wonderful opportunity for all of the states and the national body to share ideas and thoughts and ensure we are all working together on a united front to advance the wonderful sport of gymnastics within this country. Many exciting new projects were discussed and also many new friendships formed.

The management and staff of Gymnastics Tasmania would like to congratulate Cath Clark (CEO of Gymnastics Australia) and the rest of the staff at the National Office for organising this wonderful and successful conference.
