

Cyber Safety in Today's Society

Wednesday, 18 January 2012

Sport and Recreation Tasmania (SRT) and the Tasmanian Institute of Sport (TIS) would like to invite you to attend a **free** presentation to discuss Cybersafety in today's society.

SRT has identified that cybersafety is a growing concern for sporting organisations and clubs and this is a great opportunity for your organisation to learn more about cybersafety issues and ways to address them to protect your organisation and participants.

As part of its Cybersafety Outreach program, the Australian Communications and Media Authority (ACMA), delivers internet safety awareness presentations. Presentations provide valuable information about the risks confronting people online, and offer tools and tips to help make their internet experiences safe and positive. The AMCA will also be able to provide you with advice on issues your organisation may have experienced.

The ACMA's presentation has been tailored specifically for sporting organisations and internet safety presentations cover topics including:

- the ways people use the internet and emerging technologies
- potential risks for people online, such as cyberbullying, illegal content, inappropriate contact, identity theft, grooming and predatory activity
- tips to help people stay safe online.

This free presentation will be conducted in both Launceston and Hobart -
